Dear Moreno Valley Campus Community,

We have been informed by SoCal Edison that there will be a large power outage in Moreno Valley on Veteran's Day – Wednesday, November 11<sup>th</sup> between 8:00 a.m. – 5:00 p.m. The Moreno Valley Campus has secured generators which will allow the campus to have full electricity and be fully operational on that day. You will see large generators on campus so do not be alarmed. You may experience blinking red traffic lights around town so plan your travel times accordingly, or alert students or people you may wish to contact. We will be contacting campus police to coordinate coverage and traffic coordination. We don't anticipate any problems but offer the following advice:

- Make sure to back up any of your computer data
- Please use minimal electricity on that date. For example, if you are in a window office and it is convenient to turn off your lights, please do so. If not, feel free to use electricity.

**REMEMBER, WE DO NOT ANTICIPATE ISSUES, WE ARE SCHEDULED TO HAVE POWER VIA GENERATORS THAT DAY**

Should you have further questions, please don't hesitate to contact me at x6341.
