NORCO COLLEGE PRESENTS

BRIDGE TO STEM SUMMER PROGRAM

Monday June 18th-Thursday July 19th
8am-2pm  (No sessions held Fridays or July 4th)

The Bridge to STEM Summer Program is geared toward helping students improve their math skills but also exposes students to STEM related fields and careers. During the summer students are able to interact in an environment where they can learn from one another alongside dedicated faculty and staff.

This program allows students to advance their skills in mathematics while exploring the exciting world of science. If you need motivation or guidance with your career goals, we provide it here. We are fully committed to you until you successfully transfer to a 4-year university.

Program Requirements:

1. Attend informational session *Contact STEM Office for dates*
2. CNUSD high school senior or first time freshman in the summer/fall 2012
3. Minimum completion of Algebra II in High School
4. Completion of the Norco College Application online
5. Completion of the assessment test (placing into Math 35 or 53)
