MISSION

Riverside City College provides a high-quality, affordable education, including comprehensive student services, student activities, and community programs, and empowers and supports a diverse community of learners as they work toward individual achievement and life-long learning. To help students achieve their goals, the College offers learning support services, pre-college and transferable courses, and career and technical programs leading to certificates or associate degrees. Based on a learner-centered philosophy, the College fosters critical thinking, develops information and communication skills, expands the breadth and application of knowledge, and promotes community and global awareness.

GOALS AND STRATEGIES 2009-2014

Goal I: Student Access and Support

1. Explore alternative enrollment processes
 2. Ensure comprehensive and equitable services exist and are part of institutional planning
 - A. Ensure learning support services are available for all students (e.g., supplemental instruction, learning center tutors)
 - B. Expand services in learning support and transfer centers
 - C. Promote outreach to K-12 schools
- 1.) Outreach programs that promote early awareness of college. Staff members have attended events on high school campuses college workshops, fairs, etc...
- Early Childhood Education and Teacher Prep Paraprofessional pathways have been shared via live presentations at public high schools in Rialto, Fontana, Colton, Moreno Valley, Redlands, Alvard, and Riverside Unified School Districts over the last three years 2008-2011. We would like to continue this outreach as ILC staffing becomes more complete.
 - Funding sources for stipend programs, reimbursing Early Childhood Education students for coursework applicable toward the California State Child Development Permit.
 - Comprehensive Approaches to Raising Educational Standards (CARES) Plus (7/1/10 – 6/30/13) is an effort to increase the quality of early learning programs for children 0 to 5 and their families by supporting the education and preparation of an effective, well-compensated, and diverse early learning workforce.
 - Child Development Training Consortium is for eligible students who are pursuing careers in child care/development. Each CDTC member community college works with a local advisory committee to develop plans for the use of CDTC funds. Therefore, the use of CDTC funding can vary from college to

college. RCCD's Advisory Committee has recommended that we reimburse students up to the full tuition for completed Permit applicable coursework with a 'C' grade or better.

- Child Development Grant The Child Development grant is a need-based grant administered by the California Student Aid Commission Awards (CSAC) for students attending California post-secondary institutions. The grant is for students who are enrolled at least half time (six units) in coursework leading to a Child Development Permit as a teacher, master teacher, site supervisor or program director.
- Recruitment/Outreach: assisting student with registration process
 - RCC can help students get through the whole AOC registration process at the ILC:
 - Application workshops
 - Assessment workshops
 - Assessment testing
 - Online orientation (have available times to use computer)
 - Assistance with creating one semester education plan
 - Registration assistance
 - Financial aid guidance

Future plans for outreach:

- Career days/high school days on campus where students would be able to tour the campus, meet with professionals in their fields of study, and learn about the varied pathways.

2.) Build a stronger relationship with K-12.

- There are three groups of players in the relationship building strategies at the Innovative Learning Center. Elementary staff K-5) at Stokoe Elementary School are part of Alvord Unified School District, Child Care Amenity Group (CCAG) / National Pediatric Support Services (NPSS) runs the Child Development Center for children ages 6 weeks to age 6. RCC faculty members instruct adult learners taking coursework in Teacher Preparation and Early Childhood Education.

B. Outcomes Assessment Summary and Update

As a matter of good practice and in alignment with Accrediting Commission of Community and Junior Colleges (ACCJC) standards, RCC Administrative Units participate in ongoing and systematic efforts to develop and assess Service Area Outcomes (SAOs). Please see Appendix for Guide to Developing and Assessing Outcomes.

SAO's Update and Alignment. Please list your unit SAOs and update us on the activities that occurred, your method of evaluation and the status and/or outcome. For the category marked "Comments," please refer to the above listed College Goals and Strategies to indicate alignment of your unit SAOs, and/or refer to Action Plan documents <http://rcc.edu/riverside/riversidestp/action.cfm>. Feel free to add rows to the table below.

Service Area Outcome (SAO)	Method of Assessment	Status/Outcome	Comments: Please explain how the SAO is aligned to a College Goal, Strategy or Action Plan.
1. Students are provided via appropriate enrollment management, the ability to complete their transfer, career preparation/certificates and basic skills coursework.			
2. Comprehensive learning opportunities and academic support will be provided to all students with approved college curriculum in accordance with Title 5 and the educational code.			
3. Through effective collaboration, Academic Affairs will be organized to best serve the needs of students, faculty and staff.

Guide to Developing and Assessing Outcomes

Why Administrative Units Conduct Assessments: Research indicates that collecting and analyzing evidence leads to improvement of institutional or unit level effectiveness. In addition it:

- Ensures units are examining their services and programs
- Documents outcomes assessment and internal improvement efforts
- Allows each unit to demonstrate how well it is performing
- Allows for requesting resources
- Relies on fact, not perception
- Allows unit staff to prioritize improvements.

Steps to Developing Assessment Plans & Reports

- 1. Unit develops measurable Service Area Outcomes (SAO).** An SAO is a “specific statement that describes the benefit that a [unit] hopes to achieve or the impact [. . .] that is a result of the work that your unit performs. Outcomes should be:
 - challenging but attainable”
 - articulate what the unit wants to achieve
 - indicate end results for the unit rather than actions
 - relate to the unit’s mission and vision
 - focus on the benefit to the recipient of the service
 - be stable over a number of years. If it is time dependent, it is most likely a goal not an outcome; and
 - be measurable and directly related to the work of your unit.

Stems for writing outcomes can include:

- “In support of student learning, staff will _____”
- “Students are aware of _____”

“Administrators (or staff) have the _____”

Source: The American University in Cairo. “A guide to developing and implementing effective outcomes assessment: Academic support and administrative units.” December 1, 2007. Retrieved on the internet at <http://ipart.aucegypt.edu>

- 2. Unit defines how it will assess progress (non-evaluative) towards the outcomes.** The unit might consider taking an inventory of current tools being used. For example:
- what information is being collected already?
 - what assessment are you already using?

Methods that can be used to measure progress include, for example:

- student satisfaction surveys
- number and type of complaints
- growth in a specific function
- comparisons to professional organizations' best practices
- focus groups
- opinion surveys
- time to complete a task

- 3. Unit completes the assessment plan and carries out the assessment.** In order to ensure the plan is completed
- designate a coordinator for the assessment project and/or assign responsibility for individual components
 - develop a timeline indicating when work will be collected, results tabulated, analysis completed, and subsequent dialogues.

Unit gathers information, analyzes results, communicates findings, and takes action. This step is important as it is used to identify changes needed to improve efficiency, effectiveness, and unit performance. It should also be applied to for planning and budgeting and resource allocation requests (short term and long term). Ultimately it may be tied to the institution's ability to achieve its mission.
