

## Air Quality Testing in the Math/Science Building

There is a test taking place of the air quality in the Math/Science building. As part of this test, four types of monitoring devices have been placed in various rooms in the building. Below are photographs of the four monitoring devices. Please be advised that these devices are safe and they are intended to be in the classrooms and labs listed below so there is no need for alarm or concern if you see one of these devices. Note that not all rooms in the building have been equipped with a monitoring device.

Rooms in which monitoring devices have been placed:

105, 147, 205, 208, 221, 231, 301, 304, 307, 321, 329, 339, 401, 404 and the second floor office hall.
