PLT reviewed the following information topics:

College Homeless and Housing Insecure Pilot Program
- VP Carter reported that RCC was awarded a three-year $2.1 million grant by the California Community Colleges Chancellor’s Office for a college homeless and housing insecure pilot program.
- RCC was one of fourteen community colleges to receive funding from a $9 million allocation included in the 2019-20 budget by the state Legislature to support rapid rehousing services to California community college students.
- The pilot program will build upon existing college infrastructure and resources and within the local housing services community to implement a sustainable program that supports our homeless and housing insecure students.
- VP Carter will work with faculty, staff, and community partners to develop an implementation plan. Faculty and staff who have already been leading efforts to support underserved students are thrilled with the opportunity to create and implement the plan.

Caring Campus Campaign/Ask Me Booth
- Based on feedback and suggestions from volunteers working the Ask Me Booths, VP Carter’s team will gather additional information for volunteers so they can better assist students.
- Admissions and Records will continue sending emails and text messages to students enrolled in classes that meet off-campus (i.e. Rubidoux Annex, Coil, MVC, NC) and alert them of this before they make an unnecessary trip to the campus.
President’s Investiture
- VP West convened a team charged with planning and implementing the Investiture for RCC’s 12th president Gregory Anderson.
- The team will engage academic senate leaders and other college representatives to plan the program.
- The formal ceremony will be held on Tuesday, September 8th at 9 am in Landis Auditorium.
- VP West will provide PLT a timeline and proposed program at a later meeting.

Greenhouse Project
- VP West provided an update on the greenhouse project to be built on a portion of the Outdoor Plant Laboratory.
  - Architects submitted plans to the Department of State Architects last fall.
  - Few revisions were requested and have been submitted for review.
  - The college is anticipating final approvals soon with construction to begin shortly thereafter.
- Over the next few months, the greenhouse will begin to take shape, adding to the exciting educational opportunities offered by life sciences faculty through the Outdoor Plant Laboratory.

PLT considered the following policy items:

Coronavirus - Pandemic Operations Plan
- VP West discussed the Pandemic Influenza Operations Plan draft prepared by the District and college safety managers. The plan is being reviewed and revised and will be brought forward to stakeholders for input.
- The District is taking guidance from the CDC, California Department of Public Health, the County of Riverside Department of Public Health, and other local health authorities to inform and educate about the coronavirus (COVID-19). Updates are being sent to RCCD-All by District Strategic Communications.
- Vice presidents reached out to deans to ensure that all faculty concerns are heard and were pleased to receive examples of faculty supporting one another and encourage this kind of peer support.
