Strategic Planning Councils

CONSTITUTION

Article I
Purpose
The Strategic Planning Councils allow all members of the college community – students, faculty, staff, and administration – to participate in the college strategic and operational decision-making process, one based on common values, trust, and open dialogue. The purpose of the Strategic Planning Councils is grounded in statute and accreditation standards. For example, California Education Code §70901 gives “faculty, staff, and students the right to participate effectively in district and college governance, and the opportunity to express their opinions...and [ensures]...that these opinions are given every reasonable consideration.” Accreditation Standard IV.A.2 requires that “the institution establishes and implements policy and procedures authorizing administrator, faculty, and staff participation in decision-making processes.” Accreditation Standard IV also states that “governance roles are defined in policy and are designed to facilitate decisions that support student learning programs and services and improve institutional effectiveness, while acknowledging the designated responsibilities of the governing board and the chief executive officer.” Finally, Accreditation Standard IV.A.1 states that “when ideas for improvement have policy or significant institution-wide implications, systematic participative processes are used to assure effective planning and implementation.”

Article II
Roles of College Constituencies

Section 1: College Administration
The College Administration will take an active role in shared governance by being involved in the formulation and development of college policy and procedures. Education Code § 87002b gives educational administrators “responsibility for supervising the operation of or formulating policy regarding the instructional or student services program of the college or district.” Accreditation Standard IV.A.3 states that administrators, “through policy and procedures, have a substantive and clearly defined role in institutional governance and exercise a substantial voice in institutional policies, planning, and budget in their areas of responsibility and expertise.” Accreditation Standard IV.A. states that academic administrators, “through policy and procedures, and through well-defined structures, have responsibility for recommendations about curriculum and student learning programs and services.”
Section 2: Faculty
Along with the College Administration, faculty play a central role in the college’s strategic planning and operations. Title 5, §53200 gives the faculty primary responsibility for making recommendations to or reaching agreement with the governing board on academic and professional matters. It also gives the Academic Senate “special” authority to formulate policy in the “10 + 1” areas, including “processes for program review, processes for institutional planning and budget development, district and college governance structures, as related to faculty roles, and education program development.” The Academic Senate will assure student, staff, and administrative participation in all areas that directly impact them as mandated by Title 5. Accreditation Standard IV.A.3 states that faculty, “through policy and procedures, have a substantive and clearly defined role in institutional governance and exercise a substantial voice in institutional policies, planning, and budget in their areas of responsibility and expertise.” Accreditation Standard IV.A.4 states that faculty, “through policy and procedures, and through well-defined structures, have responsibility for recommendations about curriculum and student learning programs and services.”

Section 3: Staff
Staff will take an active role in shared governance by being involved in the development of college policies and procedures. Education Code, §70901 gives the classified and confidential staff “the right to participate effectively in district and college governance and the opportunity to express their opinions at the campus level and…ensure[s] that these opinions are given every reasonable consideration.” Accreditation Standard IV.A.2 provides the opportunity for staff participation in the decision-making process.

Section 4: Students
Students will participate in shared governance by being involved in the development of college policies and procedures, which have a significant impact on them as defined in Title 5, §51023. Education Code, §70901, gives students “the right to participate effectively in district and college governance, and the opportunity to express their opinions at the campus level and ensure[s] that these opinions are given every reasonable consideration.” Accreditation Standard IV.A.2 provides the opportunity for student participation in the decision-making process and “makes provision for student participation and consideration of student views in those matters in which students have a direct and reasonable interest.”

Article VI

This constitution will become effective after the RCCAS and a majority of the Strategic Planning Council membership (the voting members of the leadership councils) approve the document. Reconsideration or amendment of this charter shall be considered upon the recommendation of any two-constituency groups and approved by the RCCAS and the Strategic Planning Council membership. The bylaws of the Strategic Planning Councils may be revised by a simple majority vote by the voting members of the EPOC and by the voting members of the councils and permanent advisory/work groups.
