

HOMELESSNESS IN COMMUNITY COLLEGE

RIVERSIDE
CITY COLLEGE

RCC RESOURCES

Hunger and Homeless Relief

The Wisconsin Hope Lab report found that 42% of community college students were food insecure in the last 30 days.

In the past year 46% of community college students were housing insecure, and 12% of community college students were homeless. Right now an estimated half of all college students struggle with getting enough food to eat

Chronic homelessness is a homeless person who has been continuously homeless for a year or more, or has had at least four episodes of homelessness in the past three years. It is difficult to measure, but chronic homelessness accounts for 10-20 percent of the homeless population across the USA.
