About EduNav SmartPlan

EduNav SmartPlan is a degree planning tool to help you navigate the path all the way to graduation. With SmartPlan, you plan and register for all your courses in a guided, intuitive system personalized to your needs and preferences. In SmartPlan, you can quickly:

- Visualize your pathway to graduation, term by term
- See when you are expected to graduate and understand how any changes to your plan affect your completion timeline
- Plan, schedule and register for all your courses in one intuitive interface
- View your entire academic history including any already articulated courses

Please note that the education plans created by EduNav SmartPlan are tentative until they are fully approved by a counselor.

Valid / not valid functionality

Every time you make a change to your plan, SmartPlan checks to see if your plan is still *valid*. A valid plan is one that meets your graduation requirements and that you can register for.

Status: Validating	
--------------------	--

If you make a change that invalidates your plan, the status in the menu bar will change to Not Valid and a *Fix* button will appear.

If you want to undo the change, click the Undo button.

If you want SmartPlan to try to fix your plan, click the *Fix* button. If the system can fix it, the status will change to Valid, and SmartPlan will display a dialog box noting that it fixed your plan. If it cannot fix it, either click Undo or Recommend, which will cause SmartPlan to regenerate a valid plan.

Plan courses from multiple colleges

When you click *Add* in either plan or schedule view, SmartPlan will let you choose courses from any college, but when it plans courses for you, it only uses courses from your home college.

To have SmartPlan build your plan using courses from other colleges, click on the current site listed in the Weekly Schedule.

A dialog box will appear and you can select the college or colleges you want SmartPlan to use to plan your courses.

Keep or remove a course

Hover over the course you would like to keep or remove.

Click the star to the left of the course to express a preference to keep a course in your plan. This will mark the course with a small star. This tells SmartPlan that that you would prefer this course in your education plan over others that meet the requirements. SmartPlan will then do everything it can to keep that course — and keep it in the selected term — whenever it updates.

To remove a course from your plan, click the small x located to the left of the course. This will remove the course from the current plan, and tell SmartPlan that you would prefer that course not be planned when it updates.

The system will then check to ensure your plan is still valid. You can always check the status on the menu bar to see the current state of your plan.

Status: Validating...

A pop-up window will open which shows all other available options that meet that requirement.

Hover over the course you'd prefer to take and select Use.

Change course for requirement

Hover over the course you would like to change. Click *Change*, and then select *Change course requirement*. A pop-up window will open which shows all other available options. Hover over the course you do not want and select *Don't use*. Hover over the option you'd prefer, click *Use*, and then click *OK* at the top of the dialog box.

Move course to another term

To move a course to another term, simply drag and drop the course to a desired term.

Undo last action

If your plan becomes invalid or would simply like to undo the last action you took in customizing your plan, simply click the undo button in the toolbar.

Edit target credits (units)

The number of credits (units) scheduled and target credits (units) planned can be seen at the top of each term. The first number listed is the number of credits currently planned. The second blue hyperlinked number is the target credits for that term.

To change the target credits, click the blue hyperlink number and type the number of credits you'd prefer to take.
