The Community for Academic Progress (CAP) Program is an exciting program designed to allow students to enroll in grouped or paired courses that share common themes, activities, and assignments. Since the courses are linked, students take these classes as a group, allowing faculty and students to work and learn together. Whether you are transitioning from high school or are a continuing college student, CAP has a learning community for you! While college may seem overwhelming, CAP addresses your needs in an environment of caring faculty, staff, and administrators. In addition to learning communities, CAP offers math courses that are only open to CAP students.

The CAP Program Offers:

- An academic program based on your English placement with grouped courses in one convenient schedule;
- “Guaranteed” registration so that enrolling for college is not difficult;
- A personal orientation to introduce you to the program and to the college;
- Counselors who assist with your Student Educational Plan (SEP) and provide personal counseling and career development;
- Access to technology, both in and out of the classroom;
- Coordinated sessions with Supplemental Instructional (SI) Leaders who will provide study sessions demonstrating effective learning and study strategies;
- Field trip opportunities to CSUs, UCs, and private universities that give glimpses of university life;

Important Steps to Take Before Applying:

1. If you have not completed an RCCD application, please complete it online at www.rcc.edu;
2. If you have not taken the English, Reading and Math placement tests, please call the Assessment Center at 951-222-8451 for available testing hours;
3. If you have not completed the RCCD Orientation, please log on to WebAdvisor and complete the online orientation.
   You must also submit your One-Semester Educational Plan via WebAdvisor;

You will need your RCC student ID number, English and Reading placement scores for Spring 2015, and clearance to register for classes (no academic and/or financial holds on your account). Please review the CAP schedule in advance to determine which learning community you would like to be placed into. This will be based on your English placement and eligibility for courses in the community.

If you have not completed the above steps, you will NOT be able to apply for the CAP Program.

SPRING 2015

IGETC is a guide to choosing your classes that can save you time and money – an even better guide is a Riverside City College counselor who will work with you to develop an education plan. Your personalized plan will include general education course choices and the courses you’ll need to prepare for your major at your chosen university. In some cases, you can use one course to count for two requirements, saving you time and money.

RCCD General Education Program Student Learning Outcomes

The RCCD General Education program prepares students to be able to demonstrate an understanding of how knowledge is discovered and constructed in the natural sciences, the social and behavioral sciences, the humanities, and language and rationality. Students will understand the methods of inquiry that underlie the search for knowledge in these fields. In addition, they will gain demonstrable skills in four broad interdisciplinary areas:

Critical Thinking
Students will be able to demonstrate higher-order thinking skills about issues, problems, and explanations for which multiple solutions are possible. Students will be able to explore problems and, where possible, solve them. Students will be able to develop, test, and evaluate rival hypotheses. Students will be able to construct sound arguments and evaluate the arguments of others.

Information Competency & Technology Literacy
Students will be able to use technology to locate, organize, and evaluate information. They will be able to locate relevant information, judge the reliability of sources, and evaluate the evidence contained in those sources as they construct arguments, make decisions, and solve problems.

Communication
Students will be able to communicate effectively in diverse situations. They will be able to create, express, and interpret meaning in oral, visual, and written forms. They will also be able to demonstrate quantitative literacy and the ability to use graphical, symbolic, and numerical methods to analyze, organize, and interpret data.

Self-Development & Global Awareness
Students will be able to develop goals and devise strategies for personal development and well-being. They will be able to demonstrate an understanding of what it means to be an ethical human being and an effective citizen in their awareness of diversity and various cultural viewpoints.

IGETC = Intersegmental General Education Transfer Curriculum
SPRING 2015

IGETC is a guide to choosing your classes that can save you time and money – even a better guide is a Riverside City College counselor who will work with you to develop an education plan. Your personalized plan will include general education course choices and the courses you'll need to prepare for your major at your chosen university. In some cases, you can use one course to count for two requirements, saving you time and money.

RCCD General Education Program Student Learning Outcomes

The RCCD General Education program prepares students to be able to demonstrate an understanding of how knowledge is discovered and constructed in the natural sciences, the social and behavioral sciences, the humanities, and language and rationality. Students will understand the methods of inquiry that underlie the search for knowledge in these fields. In addition, they will gain demonstrable skills in four broad interdisciplinary areas:

Critical Thinking
Students will be able to demonstrate higher-order thinking skills about issues, problems, and explanations for which multiple solutions are possible. Students will be able to explore problems and, where possible, solve them. Students will be able to develop, test, and evaluate rival hypotheses. Students will be able to construct sound arguments and evaluate the arguments of others.

Information Competency & Technology Literacy
Students will be able to use technology to locate, organize, and evaluate information. They will be able to locate relevant information, judge the reliability of sources, and evaluate the evidence contained in those sources as they construct arguments, make decisions, and solve problems.

Communication
Students will be able to communicate effectively in diverse situations. They will be able to create, express, and interpret meaning in oral, visual, and written forms. They will also be able to demonstrate quantitative literacy and the ability to use graphical, symbolic, and numerical methods to analyze, organize, and interpret data.

Self-Development & Global Awareness
Students will be able to develop goals and devise strategies for personal development and well-being. They will be able to demonstrate an understanding of what it means to be an ethical human being and an effective citizen in their awareness of diversity and various cultural viewpoints.

Final Examination Schedule

- Failure to report for scheduled final examinations may result in a failing grade for the course. In case of illness or other emergency, the student must report to the instructor’s office or department prior to the beginning of the examination.
- Final examinations for evening (4:30PM and later) and Saturday and Sunday classes will be held at the time and place of the regular class meeting on the following dates:
  - Thursday, June 4
  - Friday, June 5
  - Saturday, June 6
  - Monday, June 8
  - Tuesday, June 9
  - Wednesday, June 10
  - Thursday, June 11
  Classes meeting two nights per week will not meet the first meeting and shall use the second meeting for the final exam.
- Final Examination Schedules are specific to each college, and are to be used to determine the final examination dates for classes that are held only at that college.
- Final examination for classes shorter than a full semester will be held on the last class meeting date.
- The chart below details the final examination schedule for full-semester weekday classes. Choose the block that most closely matches the time and day the class meets, and that does not result in a conflict with other classes that are also scheduled within that same block. The date of the final examination will occasionally be scheduled on a day that the class does not normally meet. Note the start time and arrive promptly.

For classes not on the grid or conflicts that cannot be resolved, instructors will consult the department chair and the Riverside City College Dean of Instruction for resolutions.

** If you have two finals scheduled at the same time, see your instructors to schedule an alternate time for one of your finals.
*** For any conflicts, the afternoon block of Friday, 2:00pm - 4:30pm may be considered.
† Evening classes that meet Thursday only will hold their final exam on the evening of Thursday, June 4.
