

Advanced Technical Trades

TRAILHEAD

Interested in technical skills or hands-on training programs?

The Advanced Technical Trades pathway is designed for students who are interested in careers such as automotive and autobody technology; cosmetology; welding technology; air conditioning and refrigeration; culinary arts; applied digital media; printing; or film, television and video production.

The following trailhead courses are designed to help students navigate through their first 19 units at Riverside City College within their chosen instructional pathway. These courses will allow students to explore major and career choices within their anticipated area of study without going off path in their first 19 units. The trailhead courses can be applied towards general education and potential majors within the Advanced Technical Trades pathway. For further exploration within your instructional pathway, please make an appointment to meet with a counselor.

<u>Advanced Technical Trade Courses</u>	<u>Units</u>
ENG 1A/1AH (*91 - May vary based on placement)	4 (*6)
COM 1/1H or 9/9H	3
