

Social and Behavioral Sciences

TRAILHEAD

Interested in learning about people, behaviors, society and culture?

The Social and Behavioral Sciences instructional pathway is designed for students who are interested in society and human interaction which includes, but is not limited to, administration of justice/criminal justice, anthropology, communication studies, history, psychology, sociology, political science, economics, law, social work, or ethnic or gender studies.

The following trailhead courses are designed to help students navigate through their first 16 units at Riverside City College within their chosen instructional pathway. These courses will allow students to explore major and career choices within their anticipated area of study without going off path in their first 16 units. The trailhead courses can be applied towards general education and potential majors within the Social and Behavioral Sciences pathway. For further exploration within your instructional pathway, please make an appointment to meet with a counselor.
